FIFTEENTH YEAR

McCOOK, RED WILLOW COUNTY, NEBRASKA, FRIDAY EVENING, JUNE 26, 1896.

NUMBER 6.

CELEBRATE IN McCOOK

Everything Arranged for a Rousing, Old Time Celebration.

MUSIC BY THE BRIGADE BAND

The Amusements and Display of Fireworks Will be Unequaled in This Section of State. Enjoy With Us.

As the arrangements progress for the Fourth of July, the promise of a big and enjoyable time improves and grows in proportion. Everything now points to McCook's having one of the best celebrations in her history, and indications are that the attendance from surrounding towns and country will be such as to make up a large and lively crowd.

The oration of the day will be delivered by Judge G. W. Norris of Beaver City. It will be eloquent and worth the hearing, we promise.

The day will be flooded by such music as only the Nebraska Brigade band of this city can produce.

The bicycle races especially promise to be exciting—prospects are brightening for the construction of a bicycle track up town. Besides there will be other races, horse and foot, and numerous other amusements and attractions.

The fireworks in the evening will be fine: besides there will be numerous pretty displays by individuals. All of which will be attractive and interesting.

An ox roast will be one of the features of the day we celebrate. You can't afford to miss eating some juicy ox with us.

Everything will be done to make the occasion comfortable and enjoyable to all who will come and celebrate here.

Sized up Just Right.

Here is the way a Texas paper puts it: "When you ask a man to subscribe for your paper and he says, 'Oh I never read much and besides times are too plagued tight', apologize to him for the mistake and leave him. Life is too short to waste time in trying to teach a mule how to sing soprano. All men read newspapers, lots of them. Show us a man who lives for years in a town or country and never subscribes for a paper published there, and we will show you a man with a head shaped like a piece of pie with the point up, and whose ignorance is only exceeded by his gigantic gall. A country newspaper is an institution that works every day and night for every decent man in the community; therefore every decent man in the community is in honor bound to assist in its support. The great trouble is that some well headed galoots imagine that they are making the editor a present when they take the paper. We have the profoundest sympathy for the man who lives in a country for years and never subscribes or pays for his home paper. If the poor fellow was to meet an idea in a lane, he would run and fly the other way, with the tail of his garments beating the atmosphere. Some of them haven't sense enough to keep warm in hides!"

Campaign Songs.

We have just received from the music publishing house of The S. Brainard's Sons Co., 151 Wabash avenue, Chicago, a copy of the "True Blue Republican Campaign Song Book" for the campaign of 1896. The book contains solos, duets, mixed and male quartettes, and is especially arranged for campaign clubs. It is not a cheap word edition, and is sold for the remarkably low price of 10 cents, or \$1.00 a dozen postpaid.

Will Move to McCook.

It is rumored that the Indianola Courier plant will shortly be moved to McCook and that that paper will be issued from this city, in the near future.

It is also stated that C. E. Mathews, who has been one of the Courier's McCook correspondents, will be on the force after the removal.

Further the deponent sayeth not. LATER—The Courier outfit is being moved into the city, today, and is being installed in the Tulley building. Thus the glory and prophet of Populism is with us and deserts Indianola.

Club Benefit Ball.

The McCook club will hold a grand benefit ball in the Workman hall on the evening of Tuesday, July 14th. This will be one of the events of the year. No invitations will be issued in McCook, and the committee on tickets will be pleased to see all who may wish to go. Refreshments will also be served in the banquet room of the temple.

The wheelmen of the city will meet in the city hall, tonight, to organize. The new track on the west side is now under way, and will be ready for the Fourth.

BROKE UP THE DANCE.

And the Captain Taxed Them \$6.05 Each for It.

Bert Best gave a dance, last Saturday evening, in South McCook, to a company of young friends. Or more accurately stating it, he attempted to give a dance. But a gang of six young bloods of the city, all pretty drunk, appeared on the festive scene, and after being denied admittance to participate in the event, kicked open the door and broke up the dance.

Bert filed a complaint with Police Judge Rowell on Monday, charging the boys with being drunk and disorderly, disturbing the peace, etc. Tuesday morning four of the parties appeared and plead guilty, patching up their fracture of the law with a fine of \$1.00 and trimmings, \$6.05 in total. Two of those implicated in this piece of rowdism could not be located by the officers.

Such performances should always be promptly and sternly frowned down by constituted authority. This was the first appearance of these boys before his honor, hence the light sentence. Another "break" and the "punishment" will fit the crime.

An Under Secretary.

During his recent visit here, State Engineer W. R. Akers appointed H. H. Pickens of Valley Grange precinct, and one of our best posted and practical irrigationists, as one of his Under Secretaries, with jurisdiction over the waters of the Frenchman river. Under Secretary Pickens, we understand, succeeds L. J. Carrington of Culbertson.

He has been up the river, this week, looking after the apportionment of the water according to priorities etc., and the work will be conscientiously and faithfully performed.

AND IT RAINED AGAIN

About Two Inches of Rainfall, This Week, in Nightly Showers.

BOTH NEEDED AND ABUNDANT

This Section of the State Has Been Generously Soaked, This Week, in Repeated Showers.

The showers of Sunday, morning and evening, and of Monday morning, were both opportune and helpful. About one inch of water fell in the three showers, one-half inch Sunday morning, one-fourth of an inch each on Sunday and Monday evenings. It is only to be regretted that the rains were not more general, as we understand, the precipitation was lighter south and east of here than at this place, north or west. However, they were very acceptable, and each one went to the spot.

The rain of Tuesday evening amounted to .43 of an inch, extending from eastern Colorado as far east as Hastings and beyond. The storm looked quite threatening, but did not materialize into anything damaging, although accompanied by a high wind.

The rainfall so far this month has been as follows: June 11, .58. June 21, .45. June 22, .44. June 23, .43. Or a total of 1.90 inches, which puts a very encouraging face on crop prospects of all kinds, although the small grain has been quite severely hurt in some localities in this part of the state. The corn prospect has never been brighter at this time of the year.

The electrical display during Wednesday night's rain was something startling, but the precipitation was slight, amounting to but .06 of an inch. The rain, thunder and lightning were heavier south and west of here. The retreat from the opera house, after the concert, was somewhat panicky, on this account.

Irrigation Items.

State Engineer W. R. Akers has returned from a trip to McCook, Culbertson and Palisade. He found crops of all kinds in fine condition between Lincoln and Hastings. The corn in the western part of the state where he was is fine, but small grain is in need of rain. He inspected irrigation ditches and found that irrigation has been carried on to advantage in the extreme west, but in the Republican river valley small ditches only seem to be giving satisfaction. So far at Culbertson the water has not gone through the big ditch, Water flows in rapidly, but is soaked up before it flows far. Mr. Akers believes this can be remedied by allowing water to stand in the ditch during the winter and thus preventing the ground from getting so dry. At one place he found small grain burning up along a large ditch, the farmers refusing to irrigate because of some misunderstanding with the irrigation company. During a rainy season such as the state has just experienced considerable damage to irrigation ditches by washing out is generally reported. Thus far no damage has been reported. Ditches in flooded sections have escaped injury.—Lincoln Journal.

Pythian Decoration Day.

The Knights of Pythias of our city celebrated last Sunday as Pythian Decoration day. The members of the order met at the city hall, in the afternoon, and headed by the Nebraska Brigade Band, U. R. K. P., marched to Longview cemetery, where the graves of the following departed Knights were decorated with flowers and evergreens with the appropriate and beautiful ceremony of the Pythian ritual: Sir Knights J. B. McCabe, Swan Nelson and Samuel Fisk. This is one of the truly beautiful and commendable customs of Pythianism—the annual floral remembrance of their deceased brethren in F. C. and B.

A Conquering Hero.

"Talking of bands", said Col. John F. Kenyon, the handsome and accomplished trainmaster of the Burlington route, and who registers to vote at McCook, "there are bands and bands, but McCook has the band that the Nebraska state fair management have engaged to charm the visitors, this fall, and you can say without boasting that McCook, band and all, is a conquering hero, seven days during the week".—Hastings Democrat.

Reversed and Remanded.

The case of Aultschuler vs. Snyder, error from Red Willow county, was recently reversed by the state supreme court, and the case was remanded. Opinion by Commissioner Irvine.

McCOOK'S ADVANTAGES

Jasper Willingly Confesses She Has Quite a Few of Them.

GROW GREAT AND WAX STRONG

But it Will Always be the Scene of Political and Commercial Strife and Home of the Deacon.

"W. R. Starr has moved his law office to McCook. His family will remain in Indianola for the present. We regret to see Mr. Starr leave. It is much more convenient, however, for lawyers to live in the county seat, and we do not criticize him for this move. In the law business, Indianola must take her place with Cambridge, Arapahoe and Oxford, and even a secondary place to the first two named.

While we believe that the loss of the county seat is only a temporary setback for Indianola, we must acknowledge that McCook possesses great advantages over any town in western Nebraska. McCook will always be the scene of political and social strife, but it will grow great and wax strong. At present the A. P. A. makes life a burden in McCook, drives away trade, and raises hell generally. It may be a good place to make money, but a bad place to take one's family"—Indianola Reporter.

Amputated One of His Legs.

Joseph Osborn, father of Councilman Osborn, has been seriously ailing for some time with one of his legs, the result of having frozen his feet badly some years ago. Septic poisoning threatened the old gentleman's life, and as a last resort he reluctantly permitted the offending leg to be amputated at the knee. Drs. Kay and Gunn performed the operation, Sunday, and the patient, though 74 years of age, is getting along nicely.

Installation of Officers.

The installation of the officers-elect of McCook Lodge No. 135, A. F. & A. M., took place on Tuesday evening, the following officers being duly inducted into office:

The Warmer the Hotter.

Some of our citizens have unlamented their trusty shotguns and unleashed their ambitious bulldogs, and some would-be thief or house-breaker is likely to receive a warm welcome one of these hot nights.

The Baptist brethren expect shortly to complete and close negotiations for the purchase of the Lutheran church of this place, which has long been vacant. It is the universal wish of our people that they may succeed and that that handsome building may be repaired and occupied.

THE STAR OF JUPITER.

A Short but Meritorious Program, Monday Evening.

The rain storm, Monday evening, thinned out the attendance upon the session of McCook lodge No. 1, Star of Jupiter, somewhat, still the hall was comfortably full. The customary business was disposed of in due form. Two new members were initiated into the order, after which the lodge adjourned and the usual programme of entertainment was given. The programme was short, on account of some being kept away by the storm, but it was a meritorious one. E. H. Rohlf read a splendid paper on "Citizenship". The quartette by Messrs. T. E. McCarl, C. H. McCarl, G. R. Johnson and C. W. Britt was a very enjoyable and artistic number, which concluded the regular order. However, other lines of amusement were followed until a late hour with much zest and pleasure.

No programme will be given, next Monday evening, on account of the joint meeting, on that evening, of the A. O. U. W. and D. of H.

Some were anxious to know when the secretary expected to send out copies of proposed constitutional amendments for publication and who is to get the job of publishing the notices. If a separate heading is required for each amendment and also a separate certificate attached at the bottom, the total cost will be about \$50,000, otherwise about \$45,000. Whether the amendments can be divided between two papers in one county is not known.—Lincoln Journal.
